

Bedbug Preparation Sheet

***Please be prepared to vacate the premises for 4 hours once treatment is complete**

***It is recommended that people with respiratory problems consider vacating for 12-24 hours**

1. Please have all dresser drawers empty and have all of the linens bagged.
2. These bagged linens do not have to be laundered immediately, however, they must be prior to placing them back in to the drawers after the second treatment.
3. Please remove all clothing from closets unless they are hanging and that the closet floor is free of debris.
4. Please have all sheets and pillow cases removed from all beds (including sofa beds) and bagged.
5. Please ensure all bedside tables (drawers) are empty from any items.
6. All linens should be laundered and then placed in the dryer on medium to high temperature for a minimum of 30 minutes. If there is an item that cannot be washed, place it in the dryer for 60 minutes on medium to high temperature.
7. Vacuum all floor areas (carpet/hardwood) and dispose of bag immediately in an outside garbage bin.
8. Any bags/purses that have been used for travel over the last 6 weeks should be left out for treatment.
9. Wall units do not need to be prepared and may be left as they are.
10. Please cover any aquariums with a damp towel and have the pump turned to the off position.
11. Clear all kitchen counters of food and store them in the cupboard or fridge.
12. Empty any animal dishes (food/water).

***Please have your unit prepared the same way for your follow up treatment**

***Please contact us at 01 557 0801 if you have any questions or concerns**
